Powercare Overview

Atlascopco PowerCare is a customer app provided by Atlascopco to customer Owners, supervisors, Operator/technicians operating Atlascopco machines.

App has following machine management features

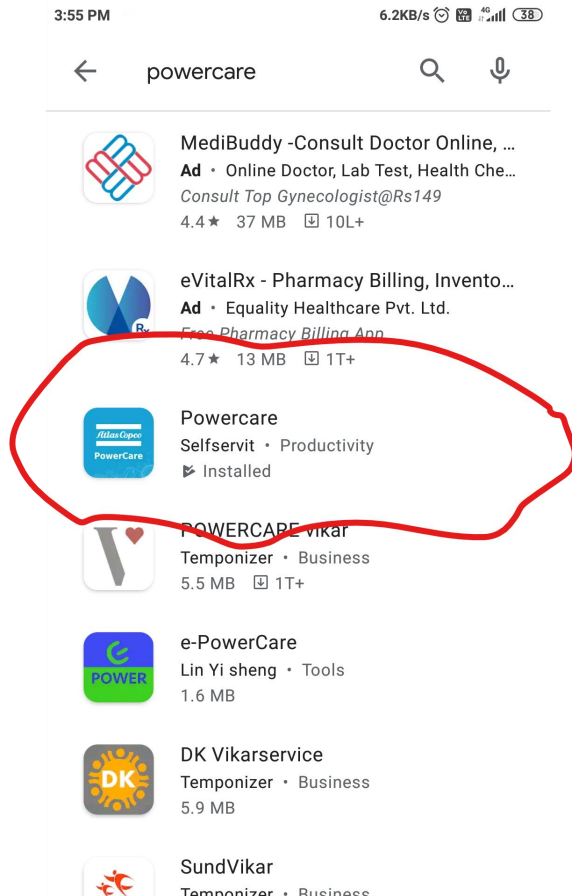

- ❖ To maintain machines owned by the customer owner
- ❖ Details of technicians using the machines,
- ❖ record and create service request tickets,
- ❖ record and create parts requirement tickets,
- ❖ track ticket status,
- ❖ know product info,
- ❖ send product query directly to Atlascopco
- ❖ receive campaign and promotional messages from Atlascopco
- ❖ Alerts on 1st, 2nd and 3rd year of commissioning as Birthday reminders

App has the following App & user Management features

- ❖ MyLanguages - English + any of 14 Indian language options
- ❖ MyLocations - Location management
- ❖ MyUsers - Users management, adding, activating, deleting
- ❖ Change Password

Download and Login

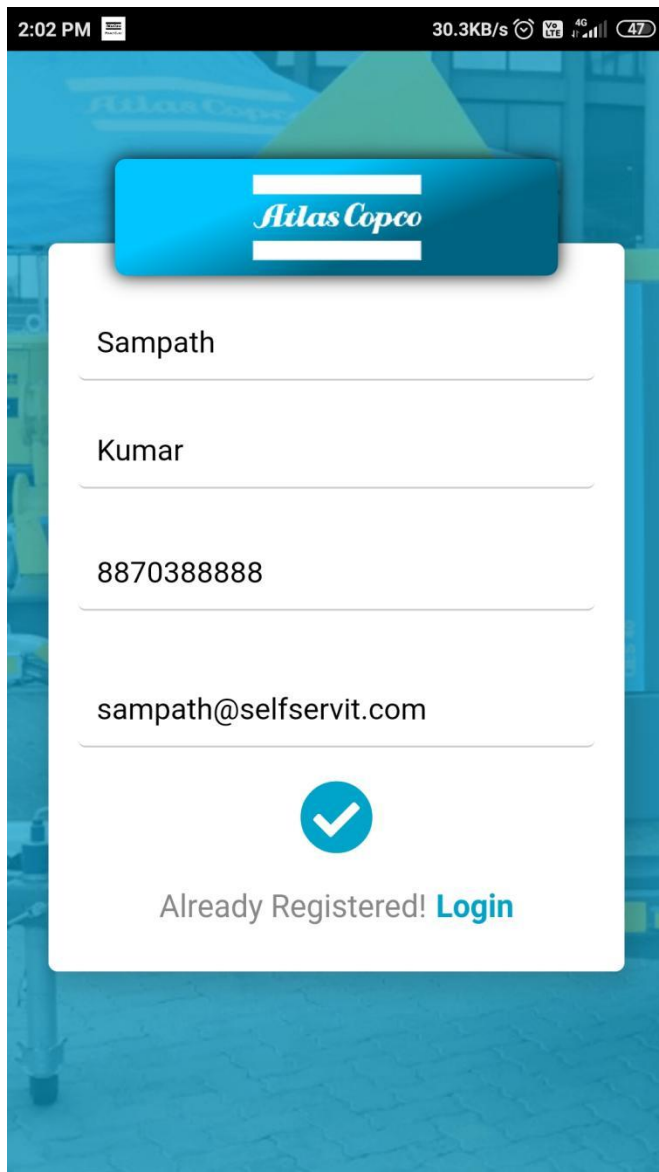

Customer Owners and Users can download PowerCare app from google playstore and login as below:

User Profile & Login

User can input Name, mobile number, email-id, to register the profile

If the owner mobile number is already existing in DMS, the system will recognize and it will

The screenshot shows a mobile application interface for Atlas Copco. At the top, there is a status bar with the time 2:02 PM, a signal strength indicator, and a battery level of 47%. Below the status bar, the Atlas Copco logo is displayed in a blue banner. The main content area is a white card with a blue border. It contains four input fields with the following text: "Sampath", "Kumar", "8870388888", and "sampath@selfservit.com". Below the input fields, there is a blue circular button with a white checkmark. At the bottom of the card, the text "Already Registered! Login" is displayed, where "Login" is a blue link.

Powercare Service Offering Tab

Information on Service kits, Extended warranty, refurbishment, element recon, FleetLink, Power connect

Our Service Offerings

Service Kits

Our Preventive Maintenance Kits contain all the parts required for the equipment's scheduled maintenance program.

Extended warranty for the screw element:

Preventive maintenance of the screw element ensures the heart of the machine is always performing well.

Refurbishment:

We return your machine with optimum performance ready for a new lease of life with restored factory conditions and extended warranty.

Element recon:

Element reconditioning ensures old elements are diagnosed and repaired cutting down maintenance costs

Technician icon on the right hand side helps to list all technicians in the company and associate a technician to this machine serial number by choosing a slider button from this tab

Notepad icon is used to create service or parts enquiry ticket as below from this tab

Contact Information

Flow of requests – Creation through closure

- ❖ Owner or technician creates service request for a machine serial number
- ❖ A Service ticket number is generated in the system
- ❖ This generated ticket can be configured to be routed to call center or previous dealer or dealer nearer to the location of the machine (as defined)
- ❖ The ticket is assigned to engineer by the call center agent or dealer coordinator
- ❖ Engineer receives the ticket in his PTS PowerHub app and progresses with the call which can be tracked

Dealer's Real-time Management

DMS + PTS PowerHub (engineer) + Powercare (customer)

Flow of requests Creation through closure – in detail

Creation of ticket in powercare

Owner creates service request from his mobile using Powercare app as explained above

Ticket received at call center

Customer created ticket is received at call center and assigned to respective dealer coordinator

The screenshot displays the Atlas Copco Call Register interface. The top header includes the Atlas Copco logo, a welcome message for Mr. Kserve, and links for Change Password, Logout, and Training. The breadcrumb trail shows 'Home > Call Register'. The main section is titled 'Call Register' and features a list of filters on the left and a table of call records on the right.

Filters:

- Call Number: 115083
- Call Category: ALL
- Call Type: ALL
- Call Status: ALL
- Date Type: ALL
- From Date: [Calendar icon]
- To Date: [Calendar icon]
- Customer Contact Name: [Text input]
- Machine Location: [Text input]
- Model: ALL

Table:

Actions	Number	Call Type	Customer	Model	Machine Location	Status	Assigned
View Edit	115083	Breakdown	K.KISTAIAH (Bhavani)	XRV1200	Pune	Open Draft	

The table shows 1 - 1 of 1 items. A context menu is visible over the first row, containing options: View, Edit, Save for Assign, Customer Follow Up, and Customer Feedback.

Ticket assigned to service engineer by dealer coordinator

Dealer coordinator receives notification and ticket visible in their login can be assigned to engineer

Engineer uses PTS PowerHub in his mobile to

The image shows a mobile app interface for 'PTS PowerHub' by Atlas Copco. The background is blue with a faint technical drawing of a mechanical part. At the top, the Atlas Copco logo is displayed above the text 'PTS PowerHub'. Below this, there are four white input fields stacked vertically, each with a label: 'CLIENT ID', 'COUNTRY CODE', 'USERNAME', and 'PASSWORD'. A blue 'Register' button is positioned below the input fields. At the very bottom, an orange banner displays the 'Device ID :97f370d2290f7403'. The top of the screen shows a black status bar with the time '15 Fri | 4:58 4r' and various system icons including signal strength, VoLTE, and battery level at 69%.
