As per the Liugong UAT, on the Employee page certain requirements were mentioned. However, when entering input into the widgets, they are not functioning properly.(defect occurs)

First Name*

:

ⓘ Only a-zA-Z0-9 _-!#/& :@;.,() [] are allowed

Last Name*

:

ⓘ Only a-zA-Z0-9 _-!#/& :@;.,() [] are allowed

Middle Name : 1234678@#\$\$%^&*

❗ Only a-zA-Z0-9_-\#/& :@;.,() [] are allowed

The above widgets are designed to accept only valid inputs as mentioned in the requirements."

Contact Number* : !!!!!!!!!!!!!!!!!!!!!!!

Contact Email* : {}@gmail.com

Below, I have mentioned both the requirement and the defects observed, where the widgets are incorrectly accepting invalid inputs

First Name:

Requirements : Only a-zA-Z0-9_-\#/& :@;.,()[] are allowed.

Defect : \$ % * _ - + . This all are also accepted

Last Name:

Requirements : Only a-zA-Z0-9_-\#/& :@;.,()[] are allowed

Defect : \$ % * _ - + . This all are also accepted.

Middle Name:

Requirement : Only a-zA-Z0-9_-\#/& :@;.,()[] are allowed

Defect : \$ % & * _ - + . This all are also accepted.

Contact Number :

1. In the Contact Number field, the system is accepting alphabets and special characters.
2. The Contact Number field is not restricted to a minimum valid length.
3. The Contact Number field is currently accepting more than 20 digits.

Contact Email :

In the Contact Email field, the system is accepting invalid formats such as text before '@gmail.com', which should not be allowed.: !#\$%^&* _-+ | {}'

When I enter invalid data and submit, the page gets submitted without showing any error or alert message.
